FOR IMMEDIATE RELEASE

40TH ANNUAL USF ENGINEERING EXPO 2012
Friday, February 17 and Saturday, February 18 From 9AM – 4PM

Engineering EXPO is a two-day open house event where the University of South Florida officially celebrates National Engineers Week. Engineering EXPO is here to educate students of all ages about how science, technology, engineering and math (STEM) affect our lives every day. This is accomplished by a myriad of FREE interactive displays, shows, and hands-on activities showcased by USF Student Organizations, USF Departments, and local companies! Last year over both days, we had over 18,000 in attendance. Primarily schools come on field trips on Friday, and on Saturday it is open to the community at large including youth groups, girl scouts, boy scouts, families, etc. It is truly an event not to be missed by any K-12 student interested in any STEM field.

Engineering EXPO is located on the University of South Florida, Tampa campus.

For more information about our event please go to our website, <http://expo.eng.usf.edu> !
