

Stephen Sadow

**Electrical Engineering's Stephen Sadow to Deliver a
Keynote Lecture at IEEE International Conference**

Tampa, Fla. (August 23, 2010) – Stephen Sadow, professor in the departments of Electrical , and Molecular Pharmacology and Physiology, will deliver a Keynote Lecture to the 32nd Annual International Conference of the IEEE (Institute of Electrical and Electronics Engineers) Engineering in Medicine and Biology Society on Friday, September 3, in Buenos Aries. This year's conference theme is "Merging Medical Humanism and Technology."

Professor Sadow will present "Silicon Carbide Biomedical Technology for Bone Implants, Stents and Brain-Machine Interfaces," (read the abstract here <http://embc2010.embs.org/invited-speakers.html>) to a group consisting of 3,000 students and 500 biomedical engineers from academic, industrial and health care institutions in Argentina, Brazil, Chile and Uruguay, in addition to normal IEEE member attendance.

For more information on the conference: <http://embc2010.embs.org/index.html>

The University of South Florida is one of the nation's top 63 public research universities and one of only 25 public research universities nationwide with very high research activity that is designated as community engaged by the Carnegie Foundation for the Advancement of Teaching. USF was awarded \$380.4 million in research contracts and grants in FY 2008/2009. The university offers 232 degree programs at the undergraduate, graduate, specialist and doctoral levels, including the doctor of medicine. The USF System has a \$1.8 billion annual budget, an annual economic impact of \$3.2 billion, and serves more than 47,000 students on institutions/campuses in Tampa, St. Petersburg, Sarasota-Manatee and Lakeland. USF is a member of the Big East Athletic Conference.
