

## MASTER'S PROGRAM IN CIVIL ENGINEERING

### Master of Civil Engineering (MCE) Master of Science in Civil Engineering (MSCE)

*A student can obtain a Master's degree in as little as nine months.*

#### REQUIREMENTS: 30 credit hours

- MCE - coursework only
- MSCE - 24 credit hours of coursework and six credit hours of thesis research

#### Students can specialize in:

- Structural
- Materials
- Water Resources
- Transportation
- Geotechnical

#### Details:

- Professional development courses such as Principles of Engineering Management can be taken from the Department of Industrial Engineering or from the College of Business Administration.
- Curriculum can include courses offered by the Department of Civil and Environmental Engineering or courses offered by other USF departments.
- Students can use two lower level courses in their Master's program.
- The American Society of Civil Engineers (ASCE) recommends a Master's Degree for entry into the Civil and Environmental Engineering profession.

*Some funding and tuition assistance is available for qualified MSCE students interested in assisting with research.  
This research becomes the topic of the student's thesis.*
