Table with 4 columns: numerical IDs (e.g., 5767, 5768, 5769) and corresponding alphanumeric strings (e.g., 14.22 174.3099 728.0607 1171.506). The table contains 400 rows of data, each row representing a unique numerical ID and its associated alphanumeric data.
